SUMMARY

Full Stack Developer experienced with React, Redux Toolkit, Node.js, Express, and MySQL. Currently working at V Telecom, fixing bugs, improving responsive UI, and optimizing application performance. Previously interned at Smartcode and Cyberswave, gaining hands-on experience in web application development and deployment.

EDUCATION

YEREVAN STATE COLLEGE OF LIGHT INDUSTRY

Software for Computing Equipment & Automated Systems I 2018 – 2022

ARMENIAN STATE PEDAGOGICAL UNIVERSITY AFTER K. ABOVYAN

Faculty of Mathematics, Physics & Informatics I 2024 – Present

SmartCode Academy

WEB Frontend & Node.js Course I 6 Months

SKILLS

HTML/CSS	Node.js
JavaScript	Express.js
TypeScript	MySQL
Bootstrap	MongoDB
Tailwind CSS	RESTful API
React.js	Sequelize ORM
Redux Toolkit	Git/GitHub
Framer Motion	GitLab

EXPERIENCE

Frontend Developer

Cyberswave I January 2025 – Present

- Developed dynamic and responsive user interfaces using React and TypeScript. Implemented animated UI
- components and transitions using Framer Motion and Lottie.
- Built drag-and-drop features with @dnd-kit and @atlaskit/pragmatic-drag-and-drop.
- Managed application state using Redux Toolkit and integrated Formik forms with Yup validation. Integrated
- RESTful APIs with Axios for fetching and updating data. Styled applications using TailwindCSS and MUI, ensuring
- responsive and accessible design. Implemented real-time chat features using WebSockets for seamless messaging
- and notifications.

Frontend Developer

V Telecom I Present

- Implemented UI updates and migrated components from Material UI to Ant Design.
- Resolved bugs, errors, and complex application issues across the codebase.
- Improved application performance through optimization and efficient code implementation.
- Developed scalable and maintainable features for production applications.
- Performed code reviews and provided feedback to improve code quality and team standards.
- Built and maintained complex production-level features and applications.
- Worked with AI agents and modern AI-assisted development workflows to improve development efficiency.
